

Budget Worksheet

Your income might come from a salary or you may be self-employed or a combination of both. Below, we are asking for your gross income and we will tackle taxes and other deductions further down in the budget.

Some bills are monthly, and some come less often. If you have an expense that does not occur every month, put it in the amount per month you would be paying.

Monthly Income

Gross Salary from paycheck #1 <small>(**taxes, employee benefits and retirement contributions deducted from paychecks will be in other sections of this worksheet)</small>	\$
Gross Salary from paycheck #2	\$
Self-Employment Income #1	\$
Self-Employment Income #2	\$
Other income (for example: child support, rental investment income, trust income)	\$
Total Monthly Income	\$

Maybe your income is more than your expenses. You have money left to save or spend.

Maybe your expenses are more than your income. Look at your budget to find expenses to cut.
